PROFILE

Software engineer with 4 years of experience building the systems businesses run on — **Odoo ERP** (v11–v19, Community & Enterprise), **Salla & Zid** e-commerce stores, and the web platforms around them — for companies in Saudi Arabia, the UAE and Egypt. Specialised in Saudi requirements: **ZATCA e-invoicing**, payroll under Saudi Labor Law (EOSB, Iqama, GOSI), multi-branch **POS**, approvals and payment integrations. Currently working across **19 production Odoo.sh projects** as lead developer on 8 and part of the development & support team on the rest.

SELECTED RESULTS

- **Zero-data-loss migration:** moved 63 custom modules from Odoo 17 to 19 as the sole developer — POS, ZATCA, Telr, HR and website.
- **Saudi HR & payroll:** built 40+ HRMS modules for Odoo 18/19 — end-of-service, Iqama, air tickets, attendance and payroll.
- **Logistics automation:** delivery-operations system for 500+ shipments a day with SMSA Express & OneStock labels generated automatically.
- **Performance:** cut critical report query times by 15% (ORM + PostgreSQL indexing); cut warehouse return-entry errors by 20% across 1,000+ daily transactions.
- **Fullstack:** three Arabic-first hotel-booking platforms (React, TypeScript, PHP, MySQL) taking live SAR payments through PayTabs.

EXPERIENCE

Partner Associate — Odoo Developer · AZM Squad

Nov 2025 – Present

Saudi Arabia · Remote

- Maintain the Monshaat government ERP on Odoo 11 Enterprise, used by 1,000+ employees across 10+ departments, with no unplanned downtime.
- Delivered 12+ module upgrades and data migrations while keeping production running; trained 50+ government users on new workflows.
- Completed the AZM Squad × Velents.ai AI-Driven Software Engineering Bootcamp and apply AI-assisted workflows to live projects.

Freelance Odoo Developer · GCC clients

Dec 2025 – Present

Saudi Arabia & UAE · Remote

- Work across 19 production Odoo.sh projects (v17–v19) — lead developer on 8, part of the development & support team on the rest — in contracting, automotive, fuel retail, cosmetics, perfumes, manufacturing and services.
- Migrated 63 custom modules from Odoo 17 to 19 as the sole developer for a Saudi retail group — multi-branch POS, split payments, ZATCA, Telr, HR and website — with zero data loss.
- Built a multi-domain Odoo 19 platform for Salhm Holding — HR, CRM, sales commissions, KPI dashboards and Excel payroll for 200+ employees.
- Built a delivery-agent system for Hayah (Dubai): assignment, live tracking and SLA reporting for 500+ daily shipments, with SMSA Express & OneStock label automation.
- Implemented multi-warehouse POS with Neoleap payments, return picking, MRP serial tracking, Muqeem / Qiwa / Mudad integrations and automated PostgreSQL backups to Google Drive.

Odoo Developer · Algoriza Jan 2022 – Nov 2025

Remote · started as intern (Jan – Jun 2022)

- Delivered 10+ custom Odoo modules (v14–v17) for Saudi logistics and e-commerce portals.
- Optimised ORM operations and PostgreSQL indexes, cutting critical report query times by 15%.
- Deployed a bulk-scanner WMS flow that reduced return-entry errors by 20% across 1,000+ daily transactions.
- Mentored 5 junior developers through code reviews; set Odoo 17 architecture standards adopted by the team.

FREELANCE — E-COMMERCE & WEB

Salla & Zid stores · LL SOGNO (llsogno.com) · Henna Ghaid (Zid) 2026

- Built and launched live stores end to end: theme, catalogue and collections, mada / Apple Pay / STC Pay, shipping, marketing tools and SEO.

Hotel-booking platforms · Diafat Kholoud · Diafat Somood · Noura Travel 2025 – Present

- Three Arabic-first booking platforms for the Umrah market: React 18 + TypeScript + Vite PWA (RTL, sub-2s loads, offline), PHP MVC REST API + MySQL, PayTabs SAR payments, SSO, maps and PDF vouchers.
- Also: corporate website for Development Standards (devestandards.com).
